Earth was considered to be a big win by these negative forces. Because earthlings were the titans of the human species, they were as gods, they had all the best of our DNA..... When earth was dropped to a third dimensional frequency to become Terra, and it was overtaken by these negative forces thousands (12.5K) of years ago, their arrogance knew no bounds. They believed they had “won the galaxy” for themselves, that there was no opposition to stop them from becoming the gods they believed themselves to be.

Millions of years ago, the Reptilian wars began when this menace moved into our galaxy from other parts of the universe. Attempts were made by the Lyrans to befriend this race, however misunderstandings led to the war which you see continuing on planet Earth today. These wars are millions of years in the making.

The positive and negative polarities of our races have fought for eons to create discord in the galaxy. We have worked hard to restore lost frequency, lost Light and lost balance within our worlds and within systems of worlds that were perfected. They lost this perfection due to this invading menace. Our galaxy has suffered on account of their presence here. We have an ultimatum for them: Be peaceful or meet your demise. That is our final word.

you do not remember the shock in the galaxy when these beasts arrived. What they have done to disturb the balance is only mildly portrayed in your current situation on earth. It is a fraction of the destruction they have caused throughout the galaxy. You understand that they plan to use your planet as a base to rule the entire universe from, and they had to be stopped. Their arrogance, their imbalanced, pathological minds know no limits.

They have created destruction in many constellations within the galaxy, and there are many still reeling lifetimes later from the pathology of this menace.

Now we have had enough. In the name of humanity, we will end this scourge of the galaxy. We have consulted with many in other universes who have dealt with them as well. Arguably, they have not had the experience of the Milky Way, not to any degree the extent of it because at the time these negative races were still young and had not acquired the arrogance and frankly, the techniques nor the manpower they have today. They are at their peak now, and they are being destroyed as we speak.

If they wish to live among us in peace, that is fine. But conduct any act of war, and these acts are explicitly outlined in our treaties, and they will experience consequences. We now know what they are capable of. We now know the entirety of their plans. And we are taking appropriate action to save lives within our galaxy.

Clearing of the Chimera group continues. The Light forces have managed to clear practically all Chimera space fleet and most Chimera underground bases.

Chimera underground bases that are still remaining are much more difficult to clear, as they are connected to the Cabal infrastructure on the surface. The main Chimera underground base under Lake Kivu in Congo with the spider king and queen has not been cleared yet.

The Light forces are also rapidly clearing quantum primary anomaly around the Earth. Quantum primary anomaly is a random quantum field which is preventing Ascended beings from manifesting into the physical realm and thus preventing them directly assisting humanity. The amount of this quantum primary anomaly around Earth was simply enormous, much bigger than expected, and it encompassed the quantum timeline potential for all negative events that might happen. Most of this general anomaly has been cleared in the last two months and most negative event potentials canceled out.

Very small amount of that anomaly extends beyond lunar orbit throughout the solar system and even throughout the whole universe, as until the last planet of darkness is liberated, none of the universe can be completely free. Even one cancerous cell in an otherwise healthy body is too much, and healing needs to happen.

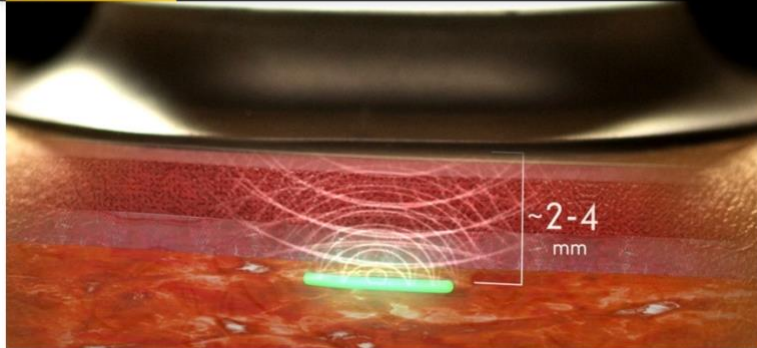

Due to the huge amount of anomaly that needed to be cleared, the Age of Aquarius meditation last December did not lead to bigger physical breakthroughs in the months following the meditation, and many people were disappointed, myself included. However, we need to understand that we are clearing millions upon millions of years of cosmic darkness and we can not expect results overnight.

Through DARPA, they are planning to develop a new generation of biochips to be put into vaccines, as they want to upgrade old Siemens biochips that the vast majority of humanity has now:

The Profusa Lumee sensor system consists of a special hydrogel and an emitting device. Together the two can detect and transmit data on subtle changes in the body, including, potentially, infection from diseases and viruses like coronavirus. PROFUSA

A Military-Funded Biosensor Could Be the Future of Pandemic Detection

If it wins FDA approval next year, the two-part sensor could help spot new infections weeks before symptoms begin to show.

Those biochips would be based on a cushion of hydrogel a few millimeters in diameter which the body would recognize as its own tissue and would not reject it, with the actual chip between 50 and 100 micrometers in size embedded into the hydrogel.

It could also connect with the already existing main Siemens biochip in the frontal lobe of the brain, which most of humanity have received with vaccination campaigns from late 1940s to early 2000s and through soft drinks. The purpose would be to control and monitor brain activity and emotions: This biochip would use ultrasound for communication, as old Siemens biochips do.

It is mind-boggling arson would be at the root of many of the fires recently ignited in the western United States, but fires are absolutely being weaponized. As we undertook to create this series, the fires hadn't started yet, but they have occurred with a vengeance, so we need to include them and consider how they are another aspect of the planned chaos.

Ninety-seven percent of forest fires are caused by humans – but usually as accidents from smoking, campfires, fireworks, and other unintentional accidents. But this year, intentional man-made arson seems to be the culprit. Social media has lots of evidence from first-hand encounters and started trending hashtag #ArsonExposed

The hunt is now zeroing in on Khazarian mob leaders such as members of the Habsburg family and their henchmen like Klaus Schwab of the World Economic Fascists, Mossad, and other sources say.

They also agree that crime minister Benjamin Netanyahu has been executed for war crimes, including the mass murder attack on Japan's nuclear power station in Fukushima on March 11th, 2011.

To understand just how historic these developments are, we need to go back to when Moses received the “Ten Commandments from God.” It is the first four of these “Commandments” that are the problem.

This “God” is the one who demanded payments in gold, silver, aroma oil, sheepskins died red, etc. In reality, it is a group that hid its system of totalitarianism behind a concept of “God.” The reason they demand that no graven images or likenesses be made of them is that they did not want people to find out “God,” was just a bunch of humans. The wizards behind the curtain. In other words, secrecy is essential to their system of governance.

This is not to deny the existence of a divine spark or a Creator. It is just to assert that the Western monotheistic Gods (Allah, Yahweh, God, etc.) are camouflage for groups of human slavers. They have a secret leader known as “Pindar” who is their absolute ruler playing the role of “God.” I still remember these people telling me “there is no God, we are God,” when they first asked me to join them in their genocidal plans.

Remember, the world religion comes from the Latin “re ligare” or to rebind into a single bundle or “fascii,” hence the word fascism.

The present-day leadership of these fascist totalitarians is trying desperately to stay in power now by using their fake pandemic to force people to take **gene-altering** vaccines that will cull the weak in a zombie apocalypse and further domesticate the survivors.

As one of their top henchmen Henry Kissinger once said, the goal is to make it as impossible for the common people to oppose them as it is for a sheep to oppose a farmer. Unfortunately for them, these would-be masters of the human-animal farm never envisioned that their **guard dogs, the military and intelligence agencies of the West, would turn against them.** That is exactly what is now happening as we shall see below.

For example, last week we received a detailed report from German intelligence about exactly who and where the leaders of this fascist group are. In the one-hour audio recording at the link below, Michael McKibben of Leader Technologies and his group of researchers have done a DEEP dive into the history and the lineage of the World Economic Forum’s Klaus Schwab and his masters. This is real reporting full of actionable intelligence based on months of research going through paper archives

etc. <https://forbiddenknowledgetv.net/klaus-schwab-and-the-fourth-reich/>

The key takeaway from all the information presented is that the royal families of Europe, including Queen Elizabeth, the Habsburgs, and the Spanish Royals, etc. believe they are descendants of Jesus Christ. They believe it is their “God” given destiny to rule humanity from Jerusalem.

The chief instrument of their rule is the **Bank for International Settlements, BIS**, and control of the creation and distribution of “currency,” as well as control of most transnational corporations. This group puts together big long-term plans such as a “War on Terror” or a “COVID-19 Pandemic” to

herd the sheeple with. They then distribute “currency” created out of thin air to their henchmen to bribe politicians, media figures, etc. to impose their plans and carry out insider trading based on these plans. The insider trading of airline stocks prior to 9.11 is a good example.

In recent years these tyrants have been fighting amongst themselves over who would get the job of Messiah in their planned fascistic New World Order. **The British royals were pushing for Prince William to play the role.** The Italian P3 fascists are promoting an individual by the name of...

Marco Di Mauro, who is apparently a charismatic Italian with stigmata. There were other would-be world dictators including the executed top Nazi George Bush Sr., and a descendant of David Rockefeller going by the moniker **Supreme Rockefeller**. The Muslims were also looking for someone to play the role of Mahdi or Messiah to usher in the New Age.

What all of these people failed to realize is that the rest of the world is **waking up** and is not going to go along with their plans and let themselves be enslaved.

The collapse of their Covid-19 plandemic is a very good example of how their ability to herd humanity is falling apart. This plan was **rushed into implementation prematurely** in late 2019 after they realized the Asian nations were no longer going to finance them.

Most importantly, their original attempt to cause mass deaths with 5G electro-magnetic attacks and then blame it on a “coronavirus,” has been neutralized.

As a reminder, take a look at this detailed presentation showing how the initial “outbreak,” of the “coronavirus,” dovetailed almost exactly with the start of 5G networks around the world. <https://www.5gexposed.com/wp-content/uploads/2020/04/Study-of-correlation-coronavirus-5G-Bartomeu-Payeras-i-Cifre.pdf>

What happened was that the 5G networks were almost immediately **shut down** which is why the mortality rate for this so-called virus is now the same as the general population’s mortality rate was before the “pandemic.”

There are also more and more whistleblowers coming out of the woodwork. For example last week a doctor working at a KKR hospital in Japan called to say that all so-called “Covid-19” cases in Japan were located at KKR hospitals and that all the patients he saw were victims of an electromagnetic attack, not a virus.

Below you can read a report from a Canadian whistleblower ER doctor describing the medical crimes of the Justin Castro regime. <https://www.henrymakow.com/2021/03/trozzi-we-are-being-deceived-and-manipulated.html>

Action is being taken. For example, a gentleman by the name of Alexander Federowicz posted a comment on our site that read in part “from 1989 to 2005 the USAF, USMC, U.S. Army, and U.S. Navy all deployed 5G frequency systems. Aiming them at any public area or intentionally irradiating any military or civilian person with these weapons would have resulted in a general court-martial and a life sentence at Fort Leavenworth Military Prison. In some cases, capital punishment would have been administered.”

MI6 took note of this comment and forwarded it to their counterparts in the Pentagon and other world military agencies. The call has now been put out to hunt down and arrest all mRNA vaccine pushers, 5G promoters, etc. as war criminals.

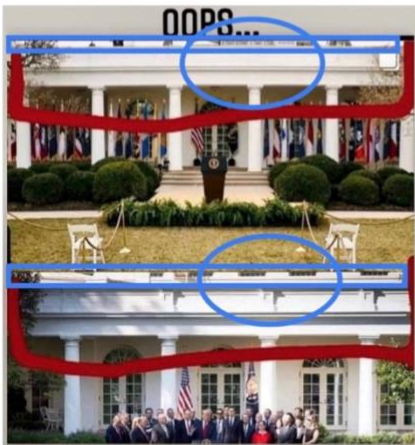

French intelligence responded with a message that read in part:

“THE DEATH PENALTY HAS BEEN PRONOUNCED AGAINST ALL THOSE PROMOTING WORLDWIDE GENOCIDE AND FRAUDULENT VACCINE-BASED GENETIC ENGINEERING. THE HEADS OF PFIZER AND ASTRA Z ARE BEING HUNTED BY SPECIAL FORCES. THE SAME IS TRUE OF INTERNATIONAL BANKERS USING FRAUDULENT HIGH-FREQUENCY TRADING PROGRAMS POWERED BY SUPERCOMPUTERS.”

Another sign the bad guys are losing is that Monsanto has been found guilty of chemical poisoning. This is a foretaste of what is going to happen to the vaccine companies. <https://www.blacklistednews.com/article/79425/monsanto-found-guilty-of-chemical-poisoning-in-landmark.html>

Everything in this universe is subjected to many cycles of various length and intensity. These cycles are actually scalar waves of cosmic energies that create interference patterns which, combined with the sum of free will vectors, shape the destiny of the universe in dynamic interplay between the Source and the primary anomaly:

We are approaching the convergence point of many cycles which is expected to erase darkness from this universe. This convergence point is expected to occur in 2025.

50 year Sirius cycle sends a powerful evolutionary pulse to planet Earth every 25th and 75th year of each century. Many of those pulses have triggered events that are connected to 2025:

- The planned reappearance of the Hierarchy in 2025, decided at the Planetary Conclave of 1425.
- Middle of Pisces-Aquarius cusp – began 1700's to around 2200. Aquarius ruler Uranus discovered in 1781.
- The overlapping cycles of the withdrawing Sixth Ray of Devotion and the incoming Seventh Ray of Magic and Order.
- The Fourth Ray of Harmony through Conflict (Art, Music, Beauty) coming slowly into manifestation after 2025.
- Pluto's entry into Aquarius in 2024. Its destruction of Capricornian crystallisation will have been completed by then.
- Neptune's entry into Aries in 2025. Amazing symbology of the Christ as Neptune. Aries the Ram – 'lamb of god'.
- Uranus's entry into Gemini in 2025. The previous cycle was 1941, turning point of WWII that led to victory in 1945.
- The half-way mark of the 49-year cycle of the *Decision Initiation* taken in 2001. ($2001 + 24.5 = 2025$)
- Conclave end of first 25 years of every century, by the Lord of the World & Council of Shamballa = 2025.

A Sirius pulse in 1775 signified the peak of Enlightenment movement in France, formation of Mystery School in Paris by Comte de Saint Germain and the "shot heard round the world" which triggered the American Revolution:

The Book of Shi-Ji

International Bestseller - 3rd Edition

From November 24, 2014, to December 2, 2014, this book was written by Shi-Ji through Peter Maxwell Slattery ("Pete") in nine hours over nine days. Shi-Ji is a Light Being and Gatekeeper of the portal in the star Merope, in the Pleiades.

The messages in this book provide knowledge of the coming times and an overview of what is, and will be, occurring for humanity, and also for the universe and beyond as a collective. This book offers greater understanding of how you are the only judge of yourself, and that all of humanity is unconditionally loved and a cell of Source.

Shi-Ji also offers messages on behalf of the Elohim, Metatron, and The Councils, and from Orion, Sirius, the Pleiades, and the Star Nations.

Video shows an encounter between U.S. fighter jets and "anomalous aerial vehicles." (To The Stars Academy of Arts and Science)

By [Reis Thebault](#)

Last year’s gargantuan \$2.3 trillion appropriations bill did a couple very obvious things: it provided millions of Americans badly needed coronavirus relief aid and it averted an impending government shutdown.

It also dealt with ... UFOs.

The legislation, which President Donald Trump signed into law, was a bureaucratic nesting doll that ran over 5,500 pages and contained the Intelligence Authorization Act for Fiscal Year 2021, which itself carried an unusual provision in its “committee comment” section, beneath the understated heading “Advanced Aerial Threats.”

The stipulation mandates that the director of national intelligence work with the secretary of defense on a report detailing everything the government knows about unidentified flying objects — known in agency lingo as “unidentified aerial phenomena” or “anomalous aerial vehicles.”

It must be made public, and when it is, it will be big, former intelligence director John Ratcliffe said in a recent interview.

“Frankly, there are a lot more sightings than have been made public,” Ratcliffe told Fox News host Maria Bartiromo on Friday.

The report must include “detailed analysis of unidentified aerial phenomena data and intelligence” gathered by the Office of Naval Intelligence, the Unidentified Aerial Phenomena Task Force and the FBI, the provision reads.

It also calls for “a detailed description of an interagency process” that will ensure that data can be gathered and analyzed across the federal government. The report could document sightings from “all over the world,” Ratcliffe said.

“There are instances where we don’t have good explanations for some of the things that we’ve seen,” he added. “And when that information becomes declassified, I’ll be able to talk a little bit more about that.”

That time could be coming soon.

When Trump approved the spending package on Dec. 27, a 180-day countdown began, giving intelligence officials until June to deliver lawmakers their write-up.

However, two factors might delay the report’s release: agencies have missed similar congressional reporting deadlines in the past; and the provision is not technically binding, as the language was included in the Senate Intelligence Committee’s report on the bill, not the bill itself.

“In other words, it isn’t statute, but the agencies/departments generally treat report language as bill language,” said one senior Senate aide familiar with the legislation.

How angry pilots got the Navy to stop dismissing UFO sightings

The office of Sen. Mark R. Warner (D-Va.), chair of the Senate Intelligence Committee, declined to comment on the UFO report. A spokesperson for the intelligence director’s office said “we have nothing to offer.”

Ratcliffe’s pronouncement comes months after the Pentagon released three grainy videos of UFOs recorded by U.S. Navy pilots using infrared cameras. The footage shows the objects moving rapidly across the screen. “My gosh,” one pilot remarks. The videos had been circulating for years but the Defense Department move gave them further official imprimatur.

Former senator Harry M. Reid (D-Nev.), a longtime backer of UFO research, said then that the footage “only scratches the surface of research and materials available.”

“The U.S. needs to take a serious, scientific look at this and any potential national security implications,” he said. “The American people deserve to be informed.”

The increasingly vocal crowd of space watchers is eagerly awaiting the forthcoming intelligence agency report. Some of them say that studying UFOs is essential to the country’s security.

In a July interview with Miami’s CBS4 News, Sen. Marco Rubio (R-Fla.), vice chair of the Intelligence Committee, said the prospect that something otherworldly is behind the flying objects does not concern him as much as the idea that a U.S. adversary could be making **secret technological advances**.

“The bottom line is if there are things flying over your military bases and you don’t know what they are because they aren’t yours and they are exhibiting — potentially — technologies that you don’t have at your own disposal, that to me is a national security risk and one that we should be looking into,” Rubio said.

Others have argued that the research has been equated with claims of extraterrestrial life and unfairly written off as kooky science fiction.

In the Fox News interview, Ratcliffe described the sightings this way: “We are talking about objects that have been seen by Navy or Air Force pilots, or have been picked up by satellite imagery, that frankly engage in actions that are difficult to explain, movements that are hard to replicate, that we don’t have the technology for or are traveling at speeds that exceed the sound barrier without a sonic boom.”

“There’s actually quite a few of those,” he added. “And I think that that information is being gathered and will be put out in a way the American people can see.”

Christopher Mellon, a former deputy assistant secretary of defense for intelligence, applauded Ratcliffe’s disclosure. Mellon, who now works with former Blink-182 frontman Tom DeLonge’s To the Stars Academy of Arts and Sciences, called it “an important and noteworthy admission.” One measure of the level of anticipation surrounding the report can be found on the Twitter account of Luis Elizondo, an ex-intelligence officer who also works at To the Stars Academy. Last month, **Elizondo** asked his followers for “the top three (3) things you would like the 180-Day report to address/say.”

He received more than 850 replies.

“Thank you for the overwhelming response to my question,” he wrote. “Another example of how you all are **changing the landscape**.”

Antarctica Underground Super Soldier Labs

One of the two Antarctica underground super soldier laboratories had grey walls that were reinforced by steel so that hybrid super soldiers could not escape from the facilities. These facilities had regeneration tanks that can fully grow clones, ET/human hybrids, augment super soldiers with psionic abilities, etc. The regeneration tanks have been utilized in various black ops underground

Pentagon ADMITS that it has been testing wreckage from UFO crashes - including a possible 'memory metal' that experts claim may have been recovered during the 1947 Roswell crash
 Researcher Anthony Bragalia secured more than 150 pages from the US Defense Intelligence Agency after the agency responded to a three-year FOIA request
 'Although much of the reports' details are redacted, what can be gleaned is that these technologies represent a literal quantum leap beyond the properties of all existing material known to man,' Bragalia wrote

Included in the pages were the repeated mention of 'advanced technology reports' surrounding Nitinol, described as a shape recovery alloy
Bragalia shared that the Nitinol had similar properties to the 'memory metal' found near the Roswell, New Mexico, UFO crash site of 1947

Lightworker complaints.

- Having to explain yourself; knowing you're being judged
- Having to dumb yourself down in order to relate to others
- Having to shut your mouth when you just want to be yourself
- Having moments of not caring and feeling unhinged, dancing out by your car out in a snowstorm because you don't give a shit sometimes
- Feeling unanchored on this planet and not sure that you want to be
- Not feeling a part of anything. And with the virus agenda going on it just makes your feeling alienated even worse
- Having to constantly assert your boundaries in order to stop control and/or manipulation attempts
- Fed up of having your free will disrespected by the unconscious; fed up of conversations that are violations of your boundaries and free will
- Feeling abnormal and frankly, thanking god you are
- Fed up of reverting to a former version of yourself in order to relate to others who aren't where you are
- Sick of doing your best to relate to others while nobody can relate to you because you understand you're the one who can stretch – they can't
- Having to relate to addicts who are frankly, everywhere, and don't even realize it
- Continually coming across the same types of people everywhere: escape artists – the addicts; control freaks, sneaky manipulators, and just plain bullshitters. People succumb to or deal with this system in maladaptive ways.
- Having problems like empathy that keep hampering your attempts to relate to others
- That feeling of being big but having to live small because there is nothing more here
- The boredom of having to get up every day and live another day of a life you know is a fraction of what you've lived before
- Wanting the reset to roll out but realizing it's not because of the slowpokes who still need to wake up
- Tired of christians thinking there's something wrong with you and their trying to get you to go to their churches
- Tired of people trying to change you because they don't understand you or think you're weird
- Tired of it just being easier to be alone
- Knowing if you say anything about any of this, you'll be directed to a shrink
- Understanding you're an advanced consciousness living in an oppressed, regressive world

- Wanting to go back and live among your old friends and then realizing you've grown past them too
- Understanding there is nothing more to this place and you're stuck here until you change it
- Understanding that you have everything to gain by taking the next step in your life, but the timing of the next step is beyond your control
- Understanding that if you were in the steps and confided this in your sponsor, she'd think you were a whack job too
- Looking for entertainment on line and seeing video's of either fear based programming, video's produced by fear-based minds, or people's pets, when all you want to do is relate to life at a satisfying level. What passes for entertainment here, frankly, just adds insult to injury
- Dealing with people who are jealous of you; have these younger starseeds ever considered that their waking up along with so many others is an advantage, not a disadvantage, and that being out in front of the pack can be lonely?
- Understanding that you're on the defensive all the time and the only time you can let your guard down is at home when you're alone, and by the way, my ET friends never put me on the defensive because they're always loving and caring
- Realizing you talk to invisible people and apparently there's something wrong with that here too
- Finding conversations with trees more interesting than a conversation with a human

As for the inoculations that are being released, understand that they indeed do cut the human off from their energetic soul connection. It is about lowering your energy level so that, again, ascension isn't possible and to take this inoculation will mean that you will be a victim of their system for the rest of your life. And it will mean that outside intervention will be necessary, and we do have permission to intervene on your behalf, only for the fact that your free will has been taken away from you. This inoculation is the last straw, so to speak. This last removal of your free will, should you survive it, will put you squarely in our hands for rescue. Many are dying of this inoculation, and there is a reason for that, of course, and that is because their life energy has been denied them. The soul sometimes will vacate the body in these cases as they will release themselves back to the ethers rather than be overtaken by negative entities. So death is a release for the soul from further struggle and imprisonment.

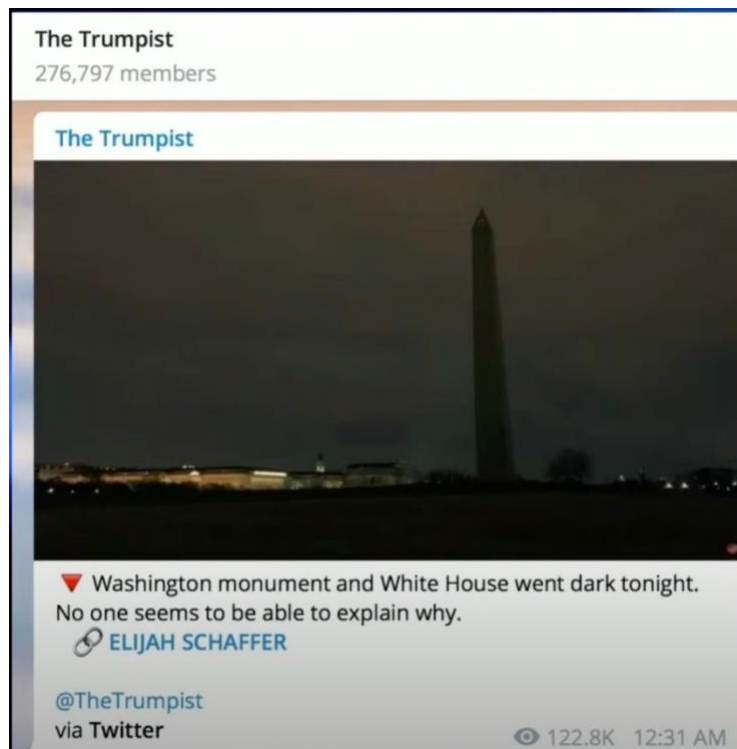

It's war, Sharon. A dirty war. There are no rules in this war. We had created treaties with the dark ones that to date may or may not have been upheld on their side, but now as we remove them from earth, all bets are off. The Light has won. What is being played out now is only a movie of what has already transpired in higher dimensions. You are experiencing this movie in your third, fourth and even fifth dimensions, and it is simply a choice of how much you wish to experience of the movie. You can sit back and realize that all is well, or you can become involved in the fear, it's your choice. And all of it is a lesson. Where you haven't prepared yourself, you're now fated to experiencing as the rest of humanity on earth will.

What is Ásatrú?

Long before Christianity came to northern Europe, the people there - our ancestors - had their own form of spirituality that influenced every aspect of their culture. One expression of this European spirituality was Ásatrú. It was practiced in the lands that are today Scandinavia, England, Germany, France, the Netherlands, and other countries as well. Ásatrú is the original, or native, religion for the peoples who lived in these regions. Nevertheless, Ásatrú is more than just a religion in the

narrow sense of the word. It is our way of being in the world; some of us call it the "Germanic Folkway" to underline this larger concept. Ásatrú is a Norse term meaning a faith or belief in the Old Norse and Germanic Gods known collectively as the Æsir. Ásatrú has its roots in ancient customs and beliefs, although it is best known from the Viking age when the old world view and the emerging Christian faith clashed and which was the period that the stories and customs were written down.

In English speaking countries four of the days of the week are named after these gods. Tuesday comes from Tiw's day who is also known as Tyr. Wednesday comes from a compound meaning "Odin's day," Thursday from "Thor's day" with Friday from "Freya's day." Throughout Scandinavia and northern Europe we find places that were dedicated anciently and named for the gods and goddesses who are still honored in this day and age.

What are the beliefs of Ásatrú? Ásatrú beliefs are rooted in the past and in the sacred mythos and cosmology of the Old Norse and Germanic people. As an ethnic or folk religion the authoritative source of belief that can legitimately be considered Ásatrú are the precedents found in the traditions, myths, folklore, literature, laws, customs, and cultural concepts which were shaped by belief in the Æsir and other supernatural beings and powers. There is no historical founder or prophet who made revealed pronouncements of law or belief. There is no central authority that lays down dogma or tenets. There is no injunction to proselytize, or any precedent for intolerance of other beliefs.

“Labyrinths were symbolic of the involvement and illusions of the lower world through which wanders the soul of man in its search for truth.

In the labyrinth dwells the lower animal man with the head of a bull (the Minotaur or Serapis), who seeks to destroy the soul entangled in the maze of worldly ignorance.

In this relation, Serapis (the Minotaur) becomes the Tryer or Adversary who tests the souls of those seeking union with the Immortals.” ~ Manly P. Hall

Sha.a.hami ETs too Nordics. Annunaki.

Germans were tired of the Jesuit attacks. They went into space and found our neighborhood was controlled by Draco. The only folks willing to make a deal.

CIA took Penny at age 4. 1959.

Monarch terror programming. Caged like animals. Monarch Solutions Program. Heads shaved.

Jurakan Draco warrior advisors.

Mind controlled USAF personnel. Dead faces.

Montauk Chair. Shoulder nodes. Psionic abilities. There are key individuals who can change history and timelines. “Butterflies.”

The timeline is sentient and resists change.

At age 6, Penny tried to hide in the portal timeline tunnel. Kaleidoscope.

Each timeline frequency is its own universe. She saw light people. Benevolents. Elf like. They would put blankets on her. Kind and loving. Medieval farms. They hid her. Like Hobbitown. Draco stopped the American commander from incinerating Penny. Draco chipped her instead. Penny was very valuable.

They were so cruel that 80% of the kids were killed because they went catatonic.

The 1980s saw changes by CIA that saved more kids.

They shot kids and threw them in Regen tanks. Incredible cruelty by CIA Draco hybrids. They looked human. Enjoyed their work as sick psychos.

Naga Reptilian doctors too. More benevolent. Historically friendly to humans. Why they were involved must have to do with cosmic law and Penny's soul choices to learn. Advisory role.

Doctors

Kids: Native Americans, Islamic Sephardi Jews from N. Africa and Spain, Scythian descendants. Bloodlines that Vatican had been killing off.
RH neg. blood types. Intensifies psionic abilities. O pos. as well. AB neg.

ET blood types:

A Rh- is Draco

**O Rh- is Anunnaki

B Rh- is Zeta Grevs

Galactic Authority: They execute the guilty. Set of laws. Millions of years old. We Earth humans don't follow the laws.

Time travel laws. We Americans fucked that up. We wanted power by changing history. More money and control. Went off the rails.

“Redial Procedure” by Germans. Bad deal. Rescue people in the past. A deal was struck. Parameters agreed upon.

Personal Note: Humans were created by 22 star races with a unique 12 strands of DNA possibly as a slow developing time bomb within the Draco Empire. When we are higher 4th or 5th density we will be a force to be reckoned with.

Black Goo A.I. started out as someone's experiment.

It evolves through a sentient race, then brings technology to play, then enslaves the race. Finally it sees that race as a competitor for resources. Sterilized race. Cyborgs and machines only. Kills the race. Galaxies were destroyed.

Sagittarius galaxy collided with Milky way.

Cathars may have used BG. They may have had psionic abilities from the Merovingian bloodline.

Black Sun initiation party....ingest BG. Sex Magick. “Midsommer” pagan rituals. Protect German cities in space. Beloved Innana of King Anu.

Female rides atop male. Kundalini. No orgasm. Pushes that energy into the male, he sends it back, then it's released. It blesses ships, planets, cities, and the German culture.

Norse gods in Asatru were the Annunaki hybrids. Ancestor worship.

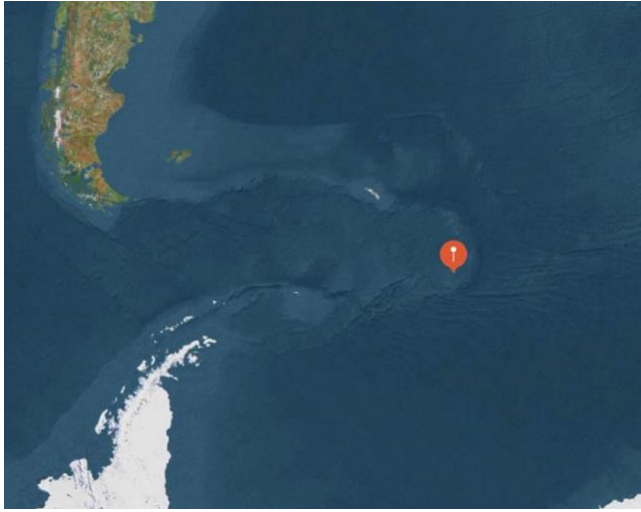

The Lyrans may have developed the BG A.I.

Old war with Draco. Lots of hybrids. Lyrans king reset AI, but failed in the end.

Every sentient race is a hybrid of one that came before.

The AI then killed everybody because we are all hybrids.

Thule Island has largest deposit of BG. (Near tip of S. America.)

BG is part of John Dee's Enochian Magick.

He went to Prussia next, Teutonic Knights. They had BG. They were conquerors and madmen.

Chaucer: A "Crusader" had been to Prussia.

Order of the Black Sun came from Teutonic Knights.

Knights Templar were not all killed. Many joined the Teutonic Knights.

Many are Freemasons now.

Nazis are Templars. All connected.

Germans are Scythians. Targeted for millennia. First the Roman emperors, then Vatican.

Mercenary companies, Solar Warden, everything is for sale. #1 is cyborgs. #2 is engineering services. Maintenance. Spares. Space stations for service. Our creativity out of the box.
Kreuger and Monarch were created at CIA with help from SS doctors. Draco tech. They make bank. \$\$\$.

We mix bits and pieces tech. We come up with all kinds of cool stuff. Home brewed hot rod stuff. We make treasure out of used junk.
80 years of rip offs, but its changing. We turn away junk.

ETs are used car salesmen. Selling us junk. Untrustworthy.
But the Germans are in space....great engineers.

Monarch and Kreuger are the mercenary companies. Black goo, enhancements. Supersoldiers. Cloned bodies. 20 and back tours.

Germans use your natural body and age regress you back. Mantids gave them REGEN tanks. HANEBU ships had bad radiation. Lots of casualties.
Trade engineering and cyborgs.

Caste system is solid. High IQ.

Self interest and species interest like us.

Pompous Draco make fun of the NW Germans. Fancy uniforms. Pride. Ect. Spurs. Teutonic Knights.

Penny was more accepted by Draco. Modified DNA. She stood up for herself. Strong. She was an intermediary, but the Germans didn't like her hybrid status. Insulting pet name.

“Full Intimacy Telepathy” Draco will accept all of your mind and vice versa. TRUST 100%

RAKKA means “slave” in Draco. (See movie)

Black Goo nanotech is a cheat. No emotion. Enlightenment on a military scale only. No spirituality. Its sentient. An agenda. Not beneficial. It creates “sleeves” robot bodies to inhabit.

The machine world, its ultimate goal.

Many groups use it, its dangerous.

White Goo is antidote.

Baphomet is a Draco. Summoned in ceremonies.

Green Goo in Regen tanks is black goo without its sentience. Its just a tool.

They say commercial air traffic is a tombstone industry. It wouldn't even surprise me at some point if they took all air traffic down over the U.S. Like they did in 9/11, then you can see more readily what's going on.

CH: This would be a wise precaution. We have the best instrumentation and can communicate with your ground forces readily and alert them to things they may not be able to detect.

Me: Like a ship load of incoming draconians?

CH: Ah. They will not get past our dragnet. We have your world thoroughly covered as we understood they would not be happy and would attempt to retake it from the humans. However, they may be able to ricochet beams from their ship to other planets near you, and this would be unacceptable.

Me: True. It would be. Is that how they burned California?

CH: Yes, although those ships were closer. It is possible to ricochet a beam from a satellite.

That is why there are so many above your planet. You believe it is so you can watch better television, but that is only the beginning of the explanation. There are obviously reasons the satellites exist that you are not aware of. Either defending or using these satellites for offensive reasons are part of their existence.

Me: And here **Elon Musk** just put up a bunch of them. For progress's sake, of course.

The sats will be repurposed for peace.

Lots of Hollywood folks are at GITMO

Marilyn Monroe is not alive. She was MK Ultra and she knew too much. So she was suicided in order to keep her mouth shut. Those who the CIA employed to gather their intel were suicided afterwards because they knew too much. They were on a kamikaze mission without even realizing it. She slept with JFK in order to learn what he had in mind, and her alter was the one that told the CIA of the plans of the White Hats. Yes, Marilyn had an alter. That is why such a talented woman had much alone time and could never get herself together. In MK Ultra they create alters within these abused people.

There are approximately thirty to forty percent hybrids on your planet. Take into consideration as well that the earthling physical body has been misappropriated and genetically modified in order to accommodate this large influx of reptilian souls, when you are in fact mammalian in nature, and you see what is going on here. They are trying to create the perfect hybrid for themselves to exist in as humans.

Why humans?

Ivo: Because they wish to have more power. 12 strands of DNA.

Why, when they spend their time taking it away from others?

Ivo: They wish to become a powerful race, a force to be reckoned with in the universe. They are not now, not even close, the human is the most powerful being.

Me: Yes, but that's because we are on the soul matrix.

Ivo: And they wish to have your souls as well as their own incarnate in a body. However, they wish to have their souls predominate and so this is why they have mind control, to allow the lower soul of the hybrid to predominate the higher human soul. This human soul is only to be used as an energy source, a power source, a battery for them if you will, while the soul of the reptilian dictates the activity of the body.

Me: Oh. I see. So there are people who embody both a reptilian soul and a human soul. What happens there?

Ivo: These people appear to be of two natures.

Me: Does this happen at birth? Or later?

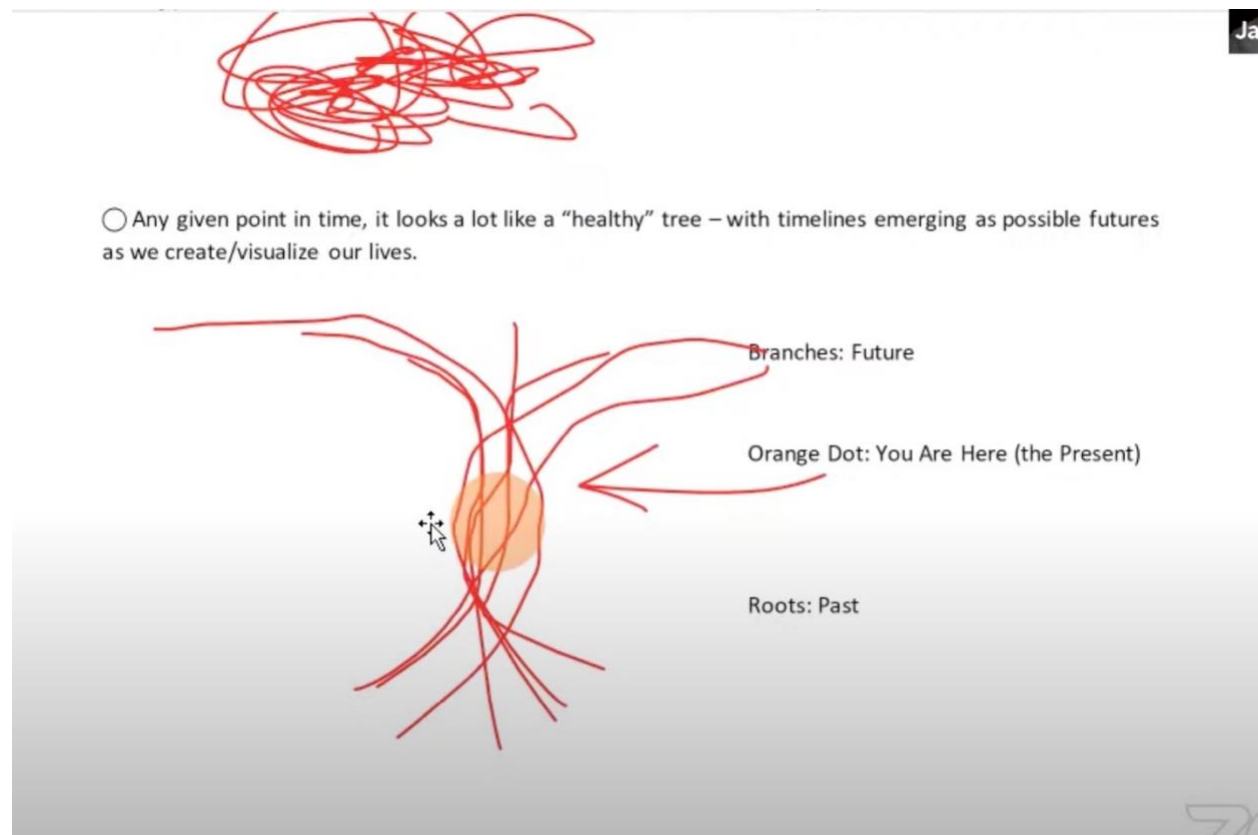

Ivo: Both can happen. The soul can overtake a weak human soul during its lifetime. Or they can be born with both souls intact and then fighting to overtake the incarnated human.

Cosmic rays are composed primarily of high-energy protons and atomic nuclei, and their origin and nature has been a conundrum since their discovery in 1912. However, neutrinos are not the only particles that reach IceCube. Everyday, millions of **muons** are detected, which have been created by the **interaction of cosmic rays with the atmosphere**. A muon is a particle similar to the electron, but with a mass about 200 times larger. Plenty of neutrinos are also created in those atmospheric cosmic ray interactions.

What does IceCube see?

- **250 million events** are detected **every day**, but only a few hundred are neutrinos
- Most of the neutrinos observed were created in the atmosphere, and only a **few dozen per year** are neutrinos originating beyond our solar system.

Most people have heard about the bloody human sacrifices amongst the Mesoamerican tribes, but maybe not everybody knew about the **Pleiadian connection**. So many these days think that the Pleiadians are the “good guys.” Here we can see, however, how the Pleiadians were involved in the Aztec religion as well as they were the Mayan and the Inca religions (Inca being a wordplay on En.ki30). In fact, most of Mesoamerica was once Pleiadian territory, and they were the ones who taught the tribes about human and animal sacrifice to please the gods. In charge of these religions was without any doubt En.ki himself.

The Pleiadians themselves admit to this in their lectures. I have listened to them, and they said that En.ki is their mentor when working with us humans, and that they (the Pleiadians) were involved with the Latin- and South American tribes, such as the Mayan and the Incas. They haven't mentioned the Aztecs from what I have heard (too embarrassing?), but the proof is in the pudding—we do have the evidence in the old texts. The Pleiadians claim that their ancestors came here to “teach” the above mentioned tribes, but in the long run the Pleiadians got power

hungry and controlling, and they forced the human tribes to worship them as gods and to sacrifice The Wes Penre Papers || The Fifth Level of Learning

The heavily suppressed scientist of the nineteenth and twentieth centuries, Nikola Tesla, is said to have been in contact with ETs who gave him this technology for him to develop. He apparently did develop it, and the Global Elite stole it from him, leaving him ruined financially, and almost totally ignored. Note also that people in the UFO field are very excited about zero-point energy, when in fact, this is already Stone Age because we already know about nano-travel. We are again being deprived of our real power as human beings, which is that we can use our bodies as catalysts to send splits of our combined fire out in the Universe to explore, while simultaneously letting our physical bodies continue doing their business on Earth, controlled by the rest of the combined fire we inhabit. As we learned in Level IV, *we are the only species in the Universe who can do this!* Hence, it's humiliating to teach us how to move through space in spaceships when we are capable of so much more. However, our *real* capabilities are still kept in secrecy.

Don't forget that YOU ARE WATCHING A MOVIE. You don't think the best and brightest military intelligence minds in the world knew the heist that the Deep State was going to pull? Just wait to see what the next two weeks will bring. Call me crazy, but I think it will be glorious. BUCKLE UP!

When all 10 living ex-Secretaries of Defense (which include Dick Cheney and Donald Rumsfeld) hop on to do an op-ed together for The Washington Post, and they all say that we should not get the military involved in election disputes...

.. Then we should probably get the military involved in election disputes. Especially when *foreign* countries are involved in meddling, *domestic* individuals are committing treason, and we sure can't trust our civilian intelligence agencies to do anything.

This is the military-industrial-complex part of the Swamp trying to fight back.

China successfully powered up its "artificial sun" nuclear fusion reactor for the first time, state media reported Friday, marking a great advance in the country's nuclear power research capabilities.

Ivo: As for America, let the chips fall where they may. I do not like

to sound so indifferent, however, as you have pointed out, universal law is universal law. When your world is to become GESARA compliant, it is because it will comply with universal law. America is far from that point right now. When they say that all is being revealed at this moment, what is being revealed, on top of the treachery of the deep state, is the mindset of the average American.

All is being revealed. And when we say, "All," we mean, "All." Your people are busy with finger pointing and name calling, throwing insults and harming others who do not agree with them. This will certainly break out in a civil war when it becomes apparent that one side won and the other did not. Or that neither side won.

Neither side will win, as a matter of fact, because, again, as you point out, my love, what they are fighting for is the continuation of their enslavement to money.

And if we can add your post of the other day in here right now, it is very apropos:

People are fighting for their freedom - insisting on going back to work every day.

Think about that, think real hard.

They don't want their freedom. They want to be caged in the same cages they were in before.

They just liked those cages better than the ones they're in now.

Ivo: This is the Age of Aquarius. This is the Age of Freedom of humanity on earth. Going back into the cages you prefer to live in is no longer an option. However, first your minds have to be freed. Universal Law is playing a part in this, as it always has, and God has decided you will be shown your own ignorance of universal law.

My dear people, universal law is the only law. Unless your world's laws align with universal law, they will not hold up, they will not support you in your lives. You must first come to understand this. Knowledge of universal law is abundant on planet earth. We even have a book we have produced on these Laws. That is how important universal law it. IT IS THE LAW. And that is in capitals. It is the law.

Now you will be expected, as always, to follow it. It is about rebalancing energies. All those who take up war against another, be it in mind or in body, will pay the price. All those who refuse to take up weapons and live peacefully will fare better. It is that simple.

Many lives will be lost in the coming year. The biggest virus on planet earth will be hatred, not covid or corona virus – hatred will be the biggest virus.

America will be learning this coming January when it rebalances the hatred it has shown to others of its own soil as you have been doing for the last few years.

This is why this war between the democrats and the republicans has taken place. You are still enacting the divisiveness of the double party system, which is a deep state tactic to keep you divided.

You are not out of the woods yet. Not by a long shot. Loving communities will be set up by those with a broader, more loving mindset. Those who are victims of

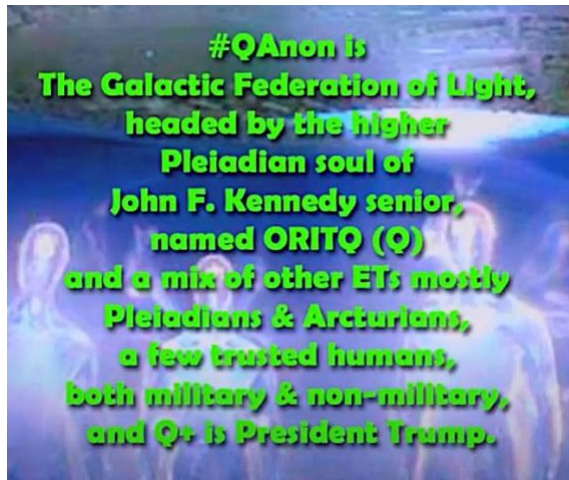

duality will battle it out to find a winner. Eventually they will figure out that nobody won.
