OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

27 JUNE 2021 ADDENDUM

—EYES ONLY—

This UAP chart is classified Above Top Secret at COSMIC Clearance.

Unauthorized personnel in possession of this document  
will be prosecuted under the National Security Act NO. 65 of 1980.  
(96-154).

Any questions or requests should be directed to DCI Gina Haspel and DIA Task  
Force Delta-Foxtrot special agent Christopher K. Mellon.

## 27 JUNE 2021 ADDENDUM P.2

### Extraterrestrial Biological Entities (EBE) I.D. Chart

#### **Alpha Draconis Reptilians (Saurians, Ciakar).**

Instituted shady deals with the Vatican for slaves, chocolate, gold, souls, and fine wine for millennia as empire-builders. Regressive “devil” species. Untrustworthy. No ethics. Non-denominational. Crafty geneticists. Temporal physics masters. Expert plumbers. Class-One shitheads. Soccer fans. Michelin five-star human meat chefs. Can be contacted with strict permissions only at Tonopah DUMBS Facility One or Ravenrock PA. Unit 5A.

#### **Zeta Reticuli Greys.**

Known confidants of CIA directors, USAP personnel, and Pentagon nabobs. Can read minds. Cheat psychically at poker. MILAB Abductors. Scientists. Regressives. Dorks. Dillweeds. They are time traveling humans from our future implementing a better timeline and genetic program for their survival. Use caution at all times. Smell bad. Pretty slimy characters. Zero-point plasma accelerator experts. Unionized. Multicolored.

#### **Nordic, Aldebaran.**

Pictured here is SS *Obergruppenführer* Hans Kammler at Los Alamos Labs, 1952. He was a NASA advisor and Mercedes fuel injection mechanic. Ruthless and amoral. Good swimmer. Fencer. Slave labor camp contractor and organizer in WW2. Hyperintellectual but extremely left-brain rigid. Non-smoker. Be advised his custom-made “atomic martinis” are mostly lethal to humans. Use caution at all times. Lifespan: 1500 years. Lockheed-Martin Club tennis champ. Genocide specialist. Cheapskate.

#### **Sirians (Sirius-A).**

Benevolent and spiritual 5th density race. Trans-dimensional. Organic vegetarians. Hippies. Peacemakers. Diplomats. Pyramid engineers. “Law of ONE” proponents. Loving. Fun. Originators of Peruvian elongated skull races circa 25,000 BC. Galactic Federation of Light ambassadors in good standing. No old boy network cooperation with the CIA, DIA, NRO, NSA, ONI, or U.S.Army G2. Why is not clear.

## 27 JUNE 2021 ADDENDUM P.3

### Extraterrestrial Biological Entities (EBEN) I.D. Chart

#### **Pleiaidians.**

Classified photo of Ashtar with President Donald Trump, 2017. Peaceful race. Benevolent ambassadors. Will not cheat while playing Texas Hold ‘Em. Painfully honest and trustworthy. Science advisors to ET-based Galactic Alliance. Liberators of Earth from regressive control. Do-gooders. Sissies. Wimps. Spandex blue uniforms with insignia are a telltale. Women are extra fetching. Use caution to avoid “Honey Trap.”

#### **Orion Consortium races (Rigel, Betelgeuse, and Bellatrix).**

Na’er do-wells, scumbags, and insufferable galactic highwaymen. Will not cooperate with anyone in the MIC or IC, even the hardened Nazis in NASA. Black market spice traders and weapons runners. Star Trek-style green slave girl traffickers. DNA harvesters. Known affiliates of Elon Musk, President Biden. Investors in Tesla Inc. and Space-X. Financiers of Robert Bigelow and Virgin Galactic. Hostess Twinkie addicts, thus they can be bribed. (Call CIA Langley dispatch: +1 347 852 2462).

#### **Mantids, a.k.a. “Esticans.”**

Fourth dimensional beings. Doctors and technicians in MILABS and ET abduction scenarios. Supervisors in the mind-body-spirit evolution of the human species into “Homo Sapiens Galacticus.” Nerds, technicians, and eggheads. Non-insectoid race. Highly intelligent. Big fucking eyes. Boring sense of humor. Nonsexual. Many doctors at Walter Reed Med Center and Groom Lake are really Mantids using a holographic disguise based on the advanced etheric energy of their chakra system. Paid well.

#### **Imperial Romulan.**

**DANGER CLOSE! MAINTAIN OPSEC PERIMETER.**  
A hybrid race of drone bee-like operatives in the 3rd-4th dimensional gap. Sporadically non-intelligent species. Unethical. No aura or chakra system, only IBM implant chips (5G). Can impersonate military personnel at will. Odd in the extreme. Rogue operators. In-country counterintelligence “experts.” Stultifyingly boring and repetitive. UAP brain-washers, thus they are valuable assets. Ball cap and special forces sunglasses.

## 27 JUNE 2021 ADDENDUM P.4 UFO/UAP PHOTO I.D. Chart

### **German Hanebu.**

Originally built by Porsche AG, Stuttgart. 1946. (Patent: 911). Badass twin-turbo torsion field plasma accelerator propulsion system that is intercooled. Moon and Mars-capable. Mach 100. DEW-equipped. Air conditioned. Power steering. No brakes. Originally designed as a Lufthansa passenger model for the Berlin-Buenos Aires Nazi Ratline run, but was eventually cancelled for public use. Three Luftwaffe “*Nachtwaffen*” crewmembers with unlimited supplies of Pervatin methamphetamines.

### **Lockheed-Martin Tic-Tac.**

USN, USAF, DIA VIP transport, CIA Black-Ops, and USSF use only. Cost per unit: \$3 trillion US. Cheap & cheerful. Solar system-capable. Speed unlimited through dimensions 3-4-5. Temporal missions are a plus (Heed all paradox protocols). Easy to fly and fly-by-wire. Capacity: 50 crew. Groom Lake S-4 hangar friendly. HUD equipped. No windshield to freeze. Easy to build. Range unlimited. Taxpayer-friendly budget requirements.

### **Andromedan Mothership.**

Holy cats it's big! Massive capacity of 250,000 crew. 500 billion metric tons. Cargo capacity: Infinite. Warp & wormhole-capable. Internal biosphere with lakes, trees, and mountains. Holographic control compartments. 5th density benevolent crew with pale blue skin and psionic abilities. This unit can make the Andromeda galactic center to San Francisco stargate run in 1.66 milliseconds. Propulsion system: UNKNOWN. Mission: Positive vibrations.

### **General Dynamics Starcruiser XP-24GACN.**

Used primarily for illegal drug, cash, and gold shipments worldwide. Cloaking and optical invisibility. Electromagnetic pulse weapons. Can be modified to look like TR3B Black Triangle for OPSEC and Black-Ops MILAB requirements. Stealthy. Slippery. Skullduggerous. Kick-ass. ET back-engineered Level 4 technology. Under-ocean capable and USN base-serviceable (Diego Garcia Island). Easy to maintain. Good mileage. Extraconstitutional. Colors available: “Racecar Red.” (Stripes optional).
